

# BeFaster - Pro Cycling Mountain Bike Event / Race Muse Template

Documentation by "Vinyljunkie" v1.0

Created: 4 March 2016

By: Serge Gray aka [Vinyljunkie](#)

Thank you for purchasing my template! If you have any questions that are beyond the scope of this help file, please feel free to email via my user page contact form [here](#).

**BeFaster** is an exclusive onepage Adobe Muse template for professional promoting cycling event (competition, race, training) for any disciplines, such as cross country, cyclo cross, downhill, enduro, road etc.

You get many useful sections

- Race overview
- Photo Gallery
- Video gallery
- Detailed info
- Registration fees & races info
- FAQ
- Maps & route
- Sponsors & Partners
- Contact form

and you can easy edit and add much more.

Features

- Responsive template: ready for desktop, tablet & mobile devices
- Creative modern onepage design
- Free webfonts used (read readbe.pdf for How install web fonts)
- Well organized template
- Easy to edit content and change main colors

Package included

- .muse file

- HTML preview
- .psd files for customization (some UI elements)
- Documentation

Photos not included, only for preview.

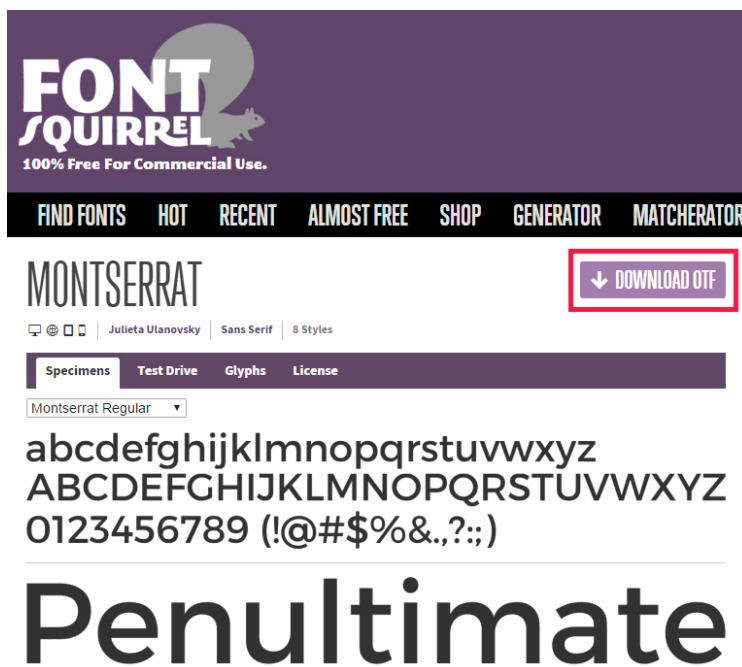

Software requirements: latest Adobe Muse version.

Note: This template is for use with Adobe Muse and can't be used in Wordpress as theme.

## How to edit template

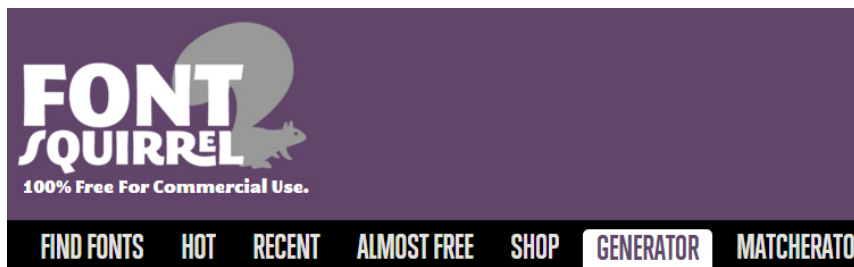

### !!! First Install manually webfont into Adobe Muse !!!

1. Go to <http://www.fontsquirrel.com/fonts/montserrat> and download Montserrat font .zip archive to your computer

2. Unzip archive with fonts

3. Go to the Webfont Generator <http://www.fontsquirrel.com/tools/webfont-generator> to generate custom webfonts for Adobe Muse.

## WEBFONT GENERATOR

**Usage:** Click the "Upload Fonts" button, check the agreement and download your fonts. If you need more fine-grain control, choose the **Expert** option.

**UPLOAD FONTS**

You currently have no fonts uploaded.

☐ **BASIC**  
Straight conversion with minimal processing.

☒ **OPTIMAL**  
Recommended settings for performance and speed.

☐ **EXPERT...**  
You decide how best to optimize your fonts.

**Agreement:** ☐ **Yes, the fonts I'm uploading are legally eligible for web embedding.**  
Font Squirrel offers this service in good faith. Please honor the EULAs of your fonts.

FontSquirrel.com

FontSquirrel.com is a service that generates webfont kits for you. It uses a variety of tools to create a kit that is compatible with all major browsers and operating systems. All ligature-type features including *liga*, *dlig*, *froc* etc.

**OpenType Flattening:**  
If the features are available, the generator will flatten them into the font.

<input type="checkbox"/> Small Caps	<input type="checkbox"/> Style Set 1	<input type="checkbox"/> Style Set 11
<input type="checkbox"/> Caps to Sm. Caps	<input type="checkbox"/> Style Set 2	<input type="checkbox"/> Style Set 12
<input type="checkbox"/> Old Style Numerals	<input type="checkbox"/> Style Set 3	<input type="checkbox"/> Style Set 13
<input type="checkbox"/> Lining Numerals	<input type="checkbox"/> Style Set 4	<input type="checkbox"/> Style Set 14
<input type="checkbox"/> Tabular Numerals	<input type="checkbox"/> Style Set 5	<input type="checkbox"/> Style Set 15
<input type="checkbox"/> Proportl. Numerals	<input type="checkbox"/> Style Set 6	<input type="checkbox"/> Style Set 16
<input type="checkbox"/> Slashed Zero	<input type="checkbox"/> Style Set 7	<input type="checkbox"/> Style Set 17
<input type="checkbox"/> Stylistic Alts	<input type="checkbox"/> Style Set 8	<input type="checkbox"/> Style Set 18
	<input type="checkbox"/> Style Set 9	<input type="checkbox"/> Style Set 19
	<input type="checkbox"/> Style Set 10	<input type="checkbox"/> Style Set 20

**CSS:**

<input type="checkbox"/> Base64 Encode Embed font in CSS	<input type="checkbox"/> Style Link Family Support in CSS	CSS Filename <input type="text" value="stylesheet.css"/>
---	--	---

**Advanced Options:**

Font Name Suffix <input type="text" value="-webfont"/>	Em Square Value <input type="text" value="2048"/>	Adjust Glyph Spacing <input type="text" value="0"/> <small>In units of the em square</small>
---	--	--

**Shortcuts:**

☐ Remember my settings

**Agreement:**

☒ **Yes, the fonts I'm uploading are legally eligible for web embedding.**  
Font Squirrel offers this service in good faith. Please honor the EULAs of your fonts.

**DOWNLOAD YOUR KIT**

Do you find this service useful? Support us with a [FONT SQUIRREL SHIRT](#) →

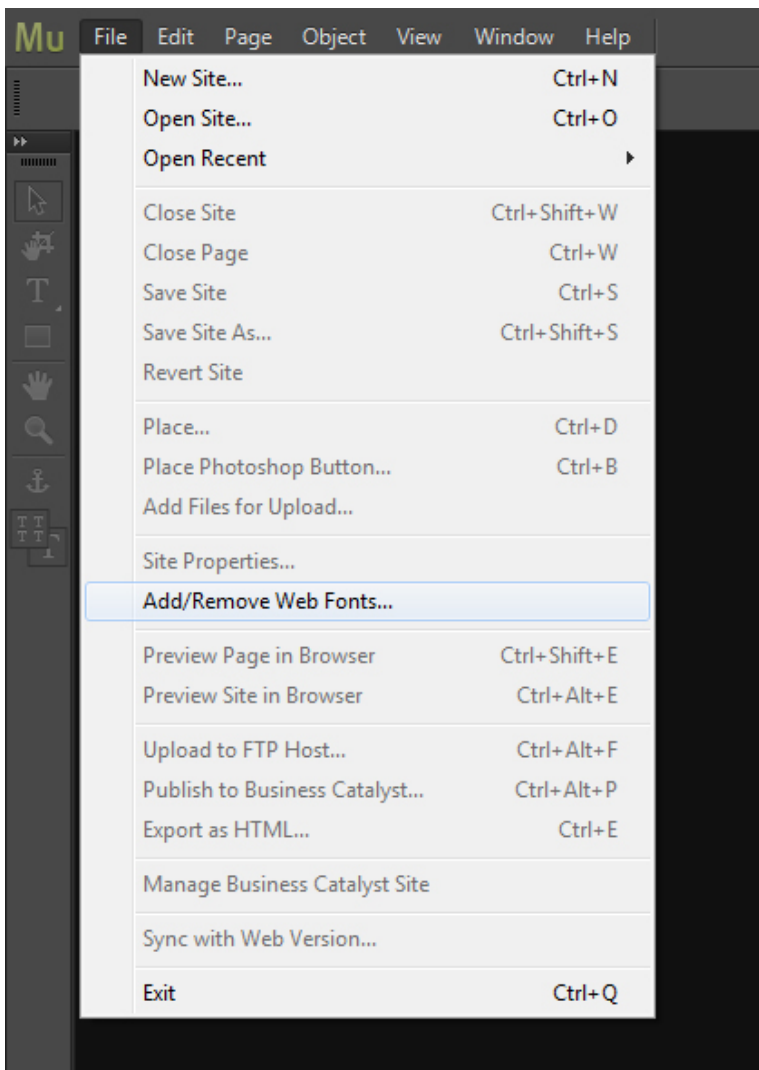

Font Squirrel relies on advertising in order to keep bringing you great new free fonts and to keep making improvements on the generator. If you are seeing this message, you probably have an ad blocker turned on. Please consider disabling it to see content from our partners.

7. Press button **DOWNLOAD YOUR KIT**.

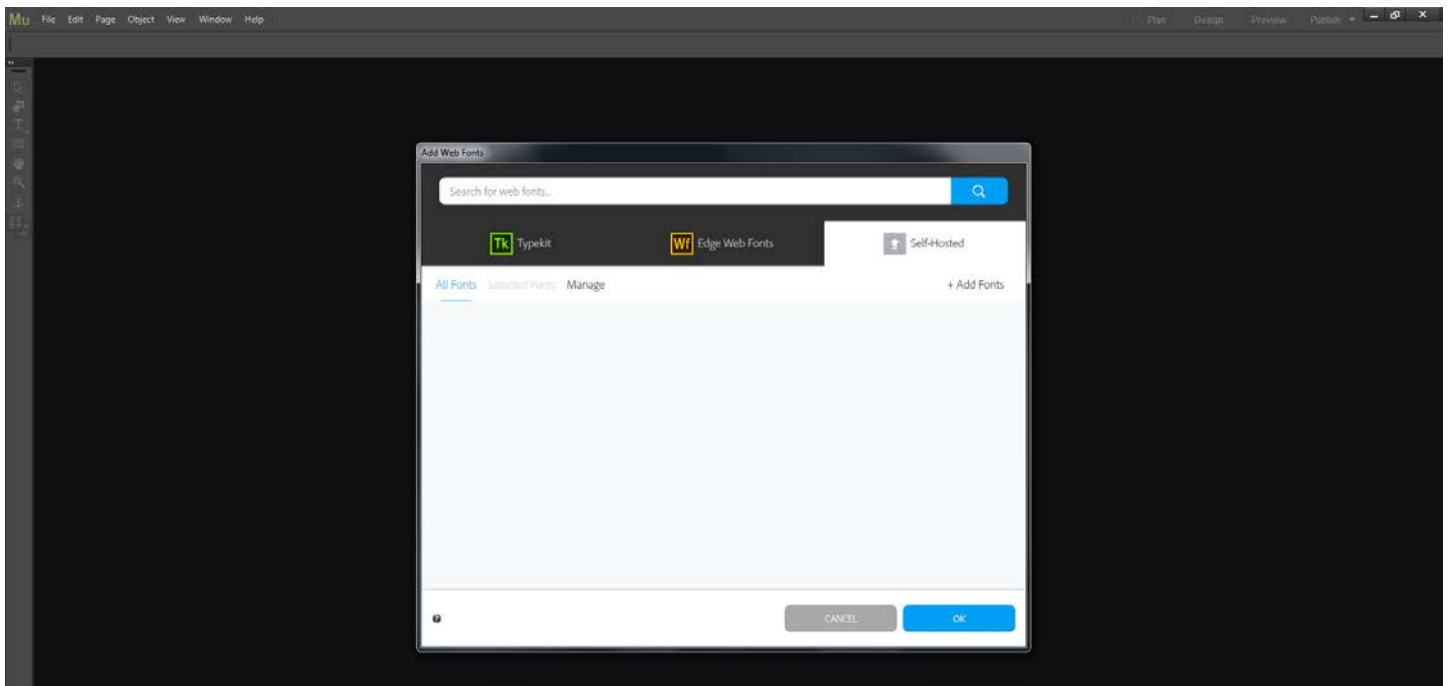

**Now you can save your webfonts kit for Muse to your computer. Please .unzip downloaded archive.**

1. Open **Adobe Muse**

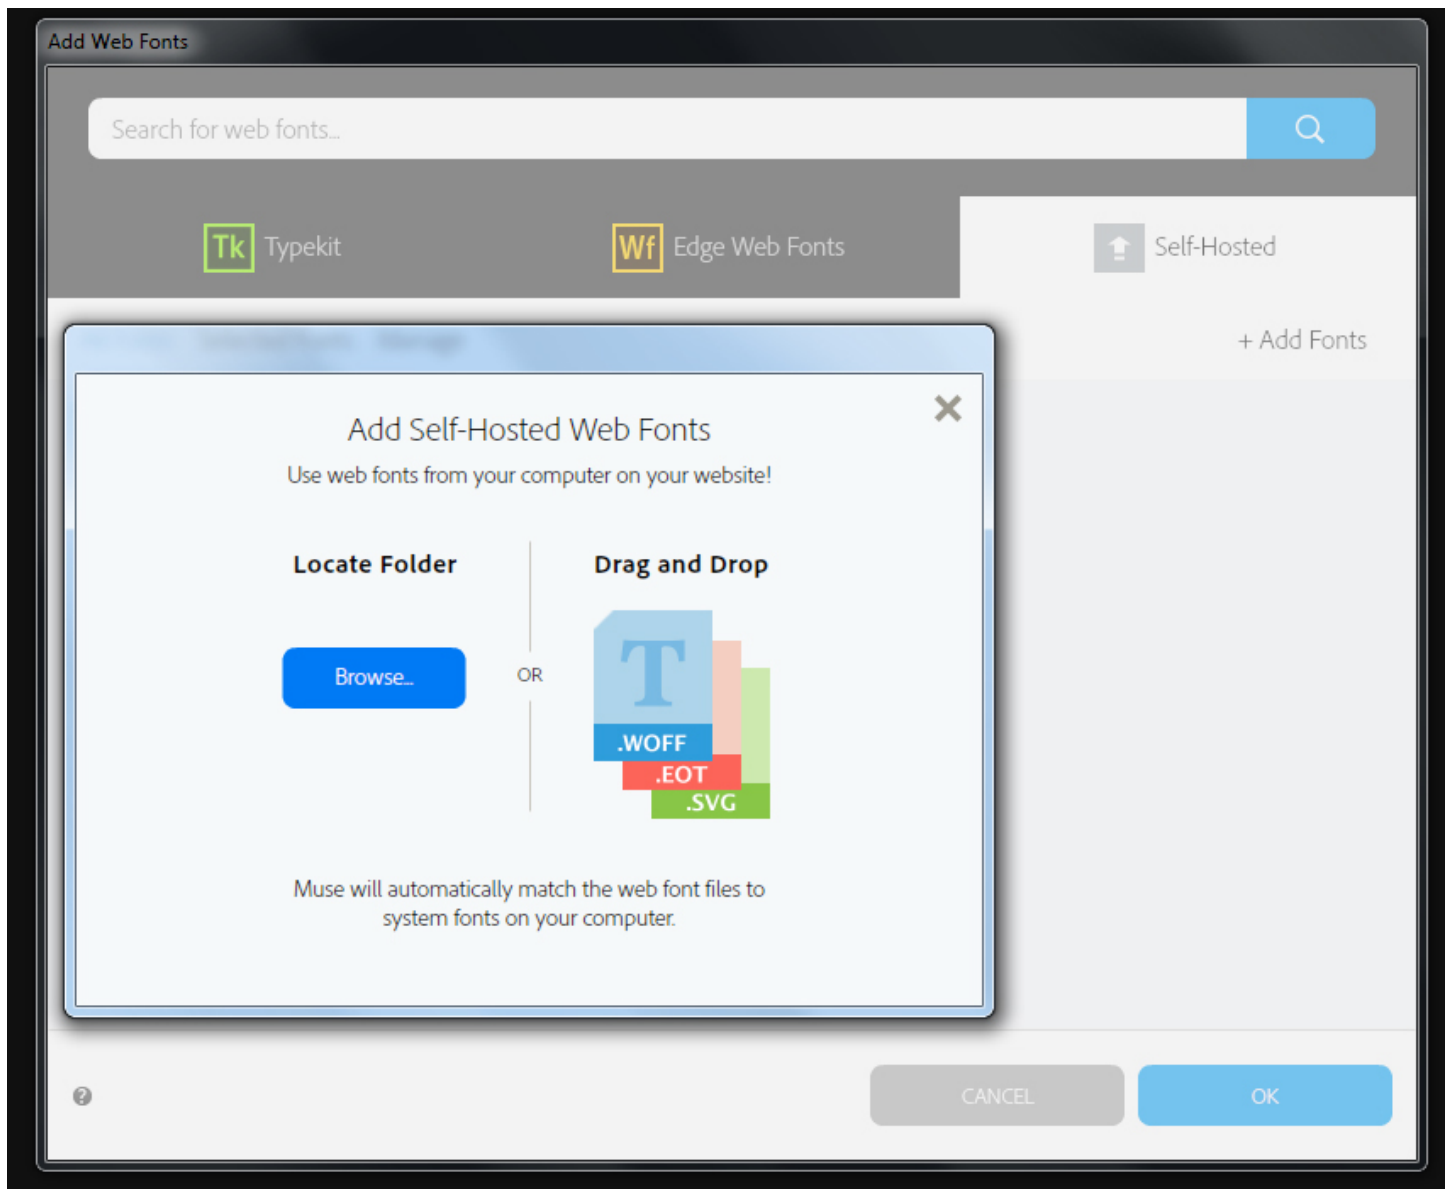

2. Got to menu **File > Add/Remove Web Fonts**

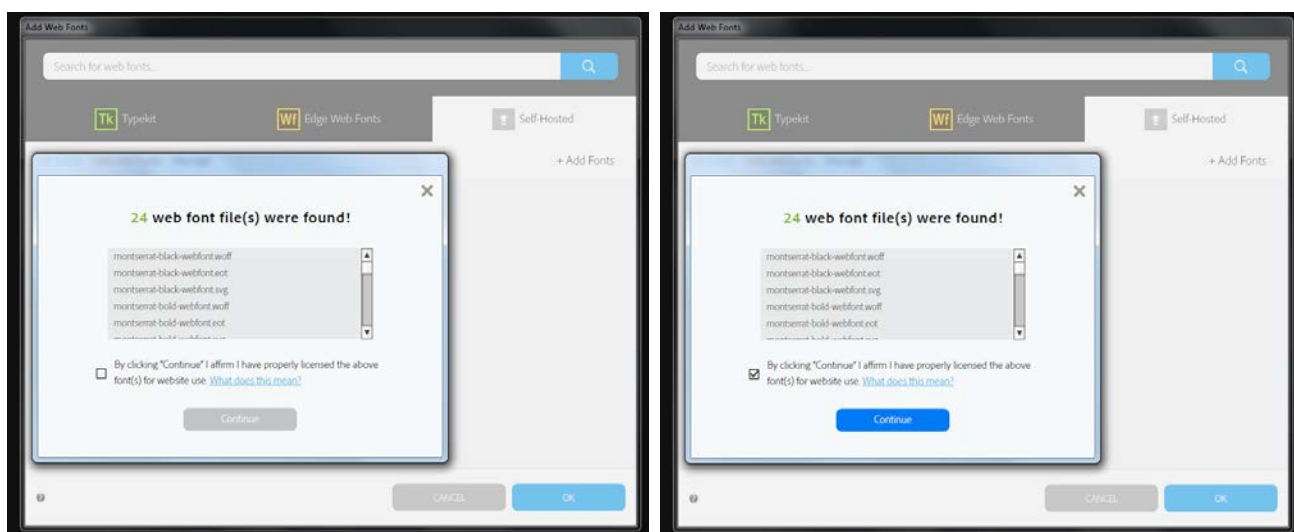

3. Select tab '**Self Hosted**' and click on **+Add Fonts**

4. Choose Locate Folder **Browse** and select your folder with downloaded unzipped webfonts kit.

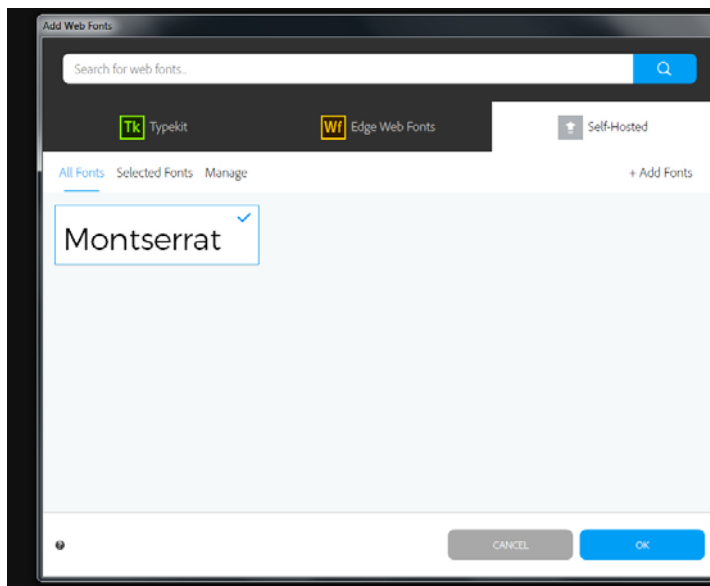

5. Check option "By clicking Continue" I affirm I have properly licensed the above font(s) for website use." and click on "**Continue**" button.

6. Now webfont 'Montserrat' are Installed into Adobe Muse and you need to check this font and press OK.

**That's it. You ready to edit BeFaster template!**

## Open template in Adobe Muse

- Unzip the downloaded archive.
- Find BeFaster.muse file. Open this file in Adobe Muse for editing or doubleclick on it (this will open straight into Adobe Muse). Make sure you have latest version of Adobe Muse.

## Customization

Full info about how to use Adobe Muse [here](#) and [here](#).

## In Muse

Once you get Muse opened you'll want to head over to the "Design" tab - then open the "Home" page. In "Design" you can edit all of the bits you see once the site has been published.

PS. To be able to edit everything on the page you should right-click and select "Unlock All on Page", and to add metadata like keywords, page description etc. you'll need to right-click and select "page properties".

## Previewing

When you've made a change to the theme you can just as easily preview it. Just head up to "Preview" in the menubar and click it. Once the preview generates it'll show you the site in the built-in Muse browser, but to view it how everyone else will see it just go to "File" then "Preview in Browser" - this will load in your default browser.

## Replacing/changing images in Muse

Select the rectangle you want to fill with a new image and select new image.

## Exporting

This part is even easier.

1. Go to "File" in the menubar, then "Export as HTML"
  2. Enter your website name
  3. Make sure to save it to the HTML folder already there
- You just need to upload it via FTP now.

## Quick change color in template

Double click on color in "Swatches" panel and change the color.

## Export template

After customization save template and export site to HTML or upload to FTP host.

## More info about Muse
