### WPML Multilingual Translation

Theme options string variables is provided in theme root folder by file name wpml-config.xml . It requires WPML string translation plugin to translate these strings.

## Installing Tamarind Theme via FTP to Wordpress

1. Download the zipped theme pack to your local computer from themeforest and extract the ZIP file contents to a folder on your local computer.
2. Using an FTP client to access your host web server.
3. Upload the Theme files in the extracted folder called 'tamarind' (its inside the extracted 'tamarind-packed') to wp-content/themes directory provided by WordPress. Please make sure you're uploading the files from the extracted tamarind zip.
4. Visit Administration > Appearance > Themes, under the Manage Themes tab, under the Available Themes, if necessary navigate to the page displaying that Theme, then click the Activate link to make the Theme, the Current Theme.

## Activating required Plugins

### Theme Activated

Once theme is activated you can begin Installing the mentioned plugins.

1. Imaginem Pagebuilder ( Bundled ) REQUIRED
2. Imaginem Food Creator ( Bundled ) REQUIRED
4. Imaginem Shortcodes ( Bundled ) REQUIRED
5. Imaginem Widgets ( Bundled ) REQUIRED
6. Slider Revolution ( Bundled )
7. Contact 7 plugin ( WordPress plugins library )

The following required plugins are currently inactive: *Slider Revolution, iMaginem Events r9, iMaginem Pagebuilder r10, iMaginem Shortcodes r16, iMaginem Widget Set r14 and iMaginem iMaginem Food Creator r3.*

The following recommended plugin is currently inactive: [Contact Form 7](#).

# *Building Main Menu*

## Building the Menus - Create Menu

The screenshot shows the WordPress 'Appearance' > 'Menus' section. The 'Appearance' menu is highlighted with a red circle '1'. The 'Create Menu' header has a red circle '2' next to the 'create a new menu' link. The 'Menu Name' input field contains the placeholder text 'Enter menu name here' and is marked with a red circle '3'. A vertical dotted arrow points from the text 'Enter a Name' above to the input field. Below the input field, there are two 'Create Menu' buttons. The first button is next to the instruction 'Give your menu a name above, then click Create Menu.' The second button is at the bottom right of the form area.

### Enter a Name

Enter an name for your Menu and Click Create Menu tab

## Building the Menus

### - Create an Item

The screenshot shows the WordPress menu editor interface. On the left, the 'Links' section is expanded, showing a 'Custom Links' box with the following fields: 'URL' containing 'http://yourdomain.co', 'Link Text' containing 'Home', and an 'Add to Menu' button. A dotted arrow points from the 'Add to Menu' button down to step 1. On the right, the 'Menu Name' is 'main menu' and there is a 'Save Menu' button. Below this is the 'Menu Structure' section with instructions: 'Drag each item into the order you prefer. Click the arrow on the right of the item to reveal additional configuration options.' A single menu item 'Home' is shown with a 'Custom' dropdown arrow. Below the item name are several configuration fields: 'URL' (http://www.yourdomain.com/), 'Navigation Label' (Home), 'Title Attribute' (empty), a checkbox for 'Open link in a new window/tab', 'CSS Classes (optional)' (empty), and 'Description' (empty). A dotted arrow points from the 'Title Attribute' field down to step 2.

- 1 Create Home Button**  
From Custom Links box , enter URL and Label. Click 'Add to Menu'

- 2 Title**  
Fill Title

## Building the Menu - Displaying Menu Sections - Screen Options

The screenshot displays the WordPress menu editor interface. On the left is a dark sidebar with navigation options: Dashboard, Posts, Events, Food Items, Media, Pages, Comments, Contact, WooCommerce, and Products. Below these are Appearance (with a red '1' marker), Themes, Customize, Widgets, Menu (with a red '1' marker), Background, Theme Options, Plugins, Users, Tools, and Settings.

The main content area is titled 'Menus' and includes a 'Manage with Live Preview' button. Below this are 'Edit Menus' and 'Manage Locations' tabs. A dropdown menu is set to 'Main Menu (Main Menu, Mobile Menu)' with a 'Select' button and a link to 'create a new menu'. A 'Screen Options' dropdown (with a red '2' marker) is visible in the top right.

The 'Boxes' section (with a red '3' marker) contains the following checked options: Pages, Posts, Products, Events, Food Items, Custom Links, Categories, Product categories, Product tags, Category Type, and WooCommerce endpoints. Unchecked options are Tags and Format. Under 'Show advanced menu properties', the following are checked: Link Target, Title Attribute, CSS Classes, Link Relationship (XFN), and Description.

The 'Pages' section on the left lists:
 

- Homepages
  - Homepage Video
  - Homepage III
  - HomePage II
- Food Menus
  - Split Page Menu II
  - Food Accordion
  - Menu Tabs

 Buttons for 'Select All' and 'Add to Menu' are at the bottom of this list.

The 'Menu Structure' section on the right shows the 'Main Menu' configuration. It includes a 'Save Menu' button and instructions: 'Drag each item into the order you prefer. Click the arrow on the right of the item to reveal additional configuration options.' The menu items are:
 

- Homepages (Page)
- Home - Classic sub item (Page)
- HomePage II sub item (Page)
- Homepage III sub item (Page)

## Building the Menus - Adding more items

The screenshot shows the WordPress menu editor interface. The 'Food Items' section is expanded, displaying a list of items with checkboxes. The items are: L'Excellence De Bonassia, Wardy Les Terroirs, Montepulciano, Azania Chenin Blanc, Pinot Gringo, Creole Bread Pudding, Creole Cream Cheesecake, and Southern Pecan Pie. Below the list are 'Select All' and 'Add to Menu' buttons. A red circle with the number '1' is positioned to the right of the 'Add to Menu' button.

### Creating more items

Pages, Categories or Custom Post Types can be added easily by selecting and clicking 'Add to Menu'

The screenshot shows a list of menu items in the WordPress menu editor. The items are: Classic Menu, Mixed Menu, Food Grid Images, Food Menu Box, Food Grid Menu, Menu Tabs, and Food Accordion. Each item has a 'Page' dropdown menu to its right. The 'Food Accordion' item is indented to the right, and a red circle with the number '2' is next to it. A dashed arrow points from the '2' to the 'Food Accordion' item.

2

### Indenting

Indenting the items creates sub menus.

↓

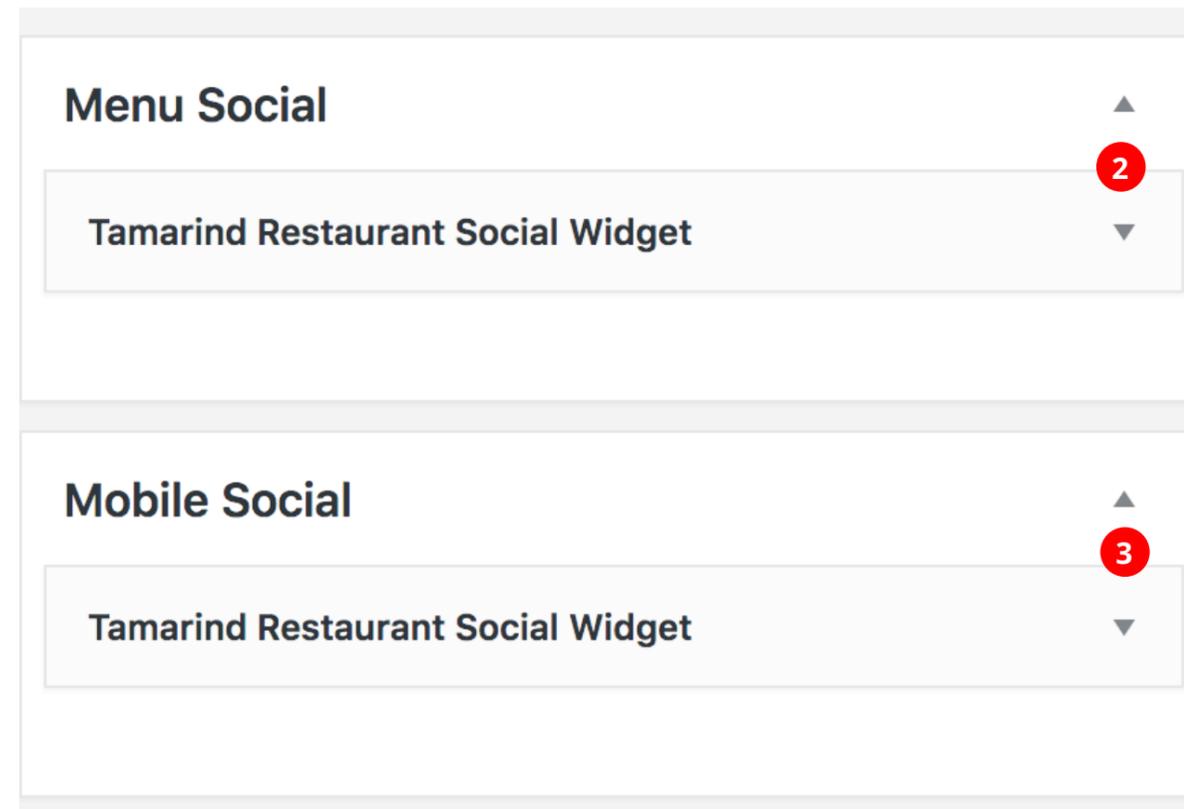

**Assign Menu to Main Menu & Mobile Menu.  
Or Select Different Menus for the sections.**

## Building the Menus - Add Social Header

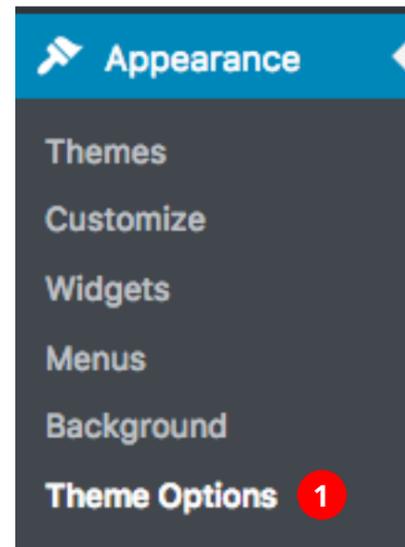

### Menu Social Header

Set the Menu Social Header by populating the Social Widget in Widgets Section.

## Menu Style

A screenshot of the WordPress 'Theme Options' page. The 'General' tab is selected and highlighted in grey. A red circle with the number '2' is positioned above the 'Menu type' section. The 'Menu type' section shows three radio button options: 'Center Logo' (selected), 'Left Menu', and 'Split Menu'. Below this, there are two toggle switches: 'Disable Comments in Pages' (which is turned on) and 'Add Facebook Opengraph Meta tags' (which is turned off). At the bottom left, there is a blue 'Save all Options' button with a red circle and the number '3' next to it.

# *Adding Site Logo*

# Theme Options - Setting Up Logo

## Logo for Horizontal Menu

The screenshot displays the WordPress Theme Options interface for the Tamarind theme. On the left, a sidebar menu under 'Appearance' lists various settings, with 'Theme Options' highlighted (1). The main content area is titled 'Theme Options' and contains a list of settings. 'Horizontal Menu Logo' is selected (2). The main panel shows settings for the horizontal menu logo, including upload fields for 'Horizontal Menu Dark Logo' (3) and 'Horizontal Menu Bright Logo' (4), and sliders for 'Logo Height' (set to 78), 'Top Space' (set to 0), and 'Left Space' (set to 0).

Setting	Description	Value / Action
Horizontal Menu Dark Logo	Horizontal Menu Dark Logo Logo for menu.	Upload (3)
Horizontal Menu Bright Logo	Horizontal Menu Bright Logo Logo for menu.	Upload (4)
Logo Height	Logo Height in pixels. Width will be adjusted with height proportion.	78 (0 to 2000 PIXELS)
Top Space	Top spacing for logo	0 (0 to 200 PIXELS)
Left Space	Left spacing for logo ( 0 sets default )	0 (0 to 200 PIXELS)

# Theme Options - Setting Up Logo Logo for Responsive Menu

The screenshot displays the WordPress 'Appearance' menu on the left, with 'Theme Options' selected and marked with a red circle containing the number '1'. The main content area shows the 'Theme Options' panel with a sub-menu on the left listing various settings: General, API's, Horizontal Menu Logo, Responsive Logo (highlighted), Footer Logo, Preloader, Food Menu, Reservation, 404, Events, Blog, Page Title, Menu Text, Content Text, Lightbox, and Sidebars. The 'Responsive Logo' section is active, showing three settings: 1. 'Responsive/Mobile Logo' with an empty text input field and an 'Upload' button, marked with a red circle containing the number '2'. 2. 'Responsive Logo Width' with a slider ranging from 0 to 2000 pixels, currently set to 0. 3. 'Responsive Logo Top Space' with a slider ranging from 0 to 200 pixels, currently set to 0.

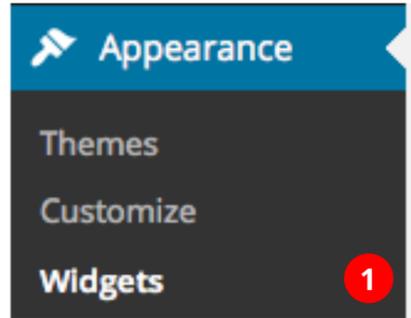

# Theme Options Preloader Screen

The screenshot displays the WordPress Theme Options interface for the Tamarind Theme. On the left, a sidebar menu under 'Appearance' lists various settings, with 'Theme Options' highlighted and marked with a red circle '1'. The main content area is titled 'Theme Options' and features a sub-menu on the left with 'Preloader' selected. The 'Preloader' settings are as follows:

- Preloader Logo:** A text input field with an 'Upload' button next to it. A red circle '2' is placed over the input field.
- Preloader Logo width:** A slider control ranging from 0 to 2000 pixels, with a numeric input field showing '0'.
- Preloader color:** A 'Select Color' button.
- Preloader screen color:** A 'Select Color' button.

*Displaying Food Menu  
Lists, Tabs, Accordions & Grids*

## Displaying Food Lists

This screenshot shows the WordPress Pages menu on the left, with the 'Add New' option highlighted by a red circle with the number 1. To the right is the 'Add New Page' dialog box, which contains a text input field labeled 'Enter title here' with a red circle and the number 2 next to it. Further to the right is a button that says 'Use Pagebuilder for this page' with a blue checkmark icon.

This screenshot shows the iMaginem Page Builder interface. At the top, there are five tabs: 'Elements', 'Food', 'Layout', 'Media', and 'Posts'. The 'Food' tab is selected and highlighted with a red circle and the number 3. Below the tabs is a search bar labeled 'LIVE SEARCH'. Underneath the search bar, there are six widget options, each with a grid icon: 'Event Grid', 'Food Accordion', 'Food Grid', 'Food List', 'Food Tabs', and 'OpenTable'. The 'Food List' widget is highlighted with a red circle and the number 4.

This screenshot shows the WordPress page editor. A yellow widget titled 'FOOD LIST' is displayed, with '12/12' items shown. To the right of the widget is a toolbar with several icons: an upward arrow, an 'Edit' button (highlighted with a black tooltip), a share icon, and a trash icon. Below the widget, there is a small grid icon on a dark background.

Responsive Menu ✎	<b>Sidebar 3</b>	

**Activate Sidebars by entering a Name for it**  
 You can activate sidebars on demand by giving the sidebars a name. Active sidebars are listed in the Widgets area.

### Choice of Sidebar

For Sidebar Active Pages and Posts

**4 Sidebar Selecting for Post & Pages**  
 'Choice of Sidebar' option is found in all Post and Page editing screen.

# *Slideshows*

## Slideshow

The image shows the WordPress 'Add New Page' interface and the iMaginem Page Builder editor. The interface includes a sidebar with 'Pages', 'All Pages', and 'Add New' (1). The main area has a title input field 'Enter title here' (2). The iMaginem Page Builder editor shows a top navigation bar with 'Elements', 'Food', 'Layout', 'Media' (3), and 'Posts'. Below this is a 'LIVE SEARCH' bar and a grid of block options including 'Audio', 'Before After Image', 'Hero Image', 'Lightbox', 'Lightbox Carousel', 'Links Carousel', 'Metro Grid', 'Photo Textbox', 'Photocard', 'Single Image', 'Slideshow' (4), 'Swiper Slides', 'Thumbnails Grid', 'Vertical Images', 'Vimeo Video', and 'Youtube Video'. At the bottom of the editor are buttons for '+ Preset Templates', 'Export Blocks', 'Import Blocks', 'Undo', 'Redo', and 'Clear All'. The page editor at the bottom shows a 'SLIDESHOW 12/12' block (5).

Edit and attach images to the slideshow block
